Skills

Flutter

JavaScript

.NET

MSSQL

Angular

NodeJS

Summary

I graduated from Marmara University Electrical-Electronics Engineering at 2022. Since my last year at university I have worked as a Software Developer. While working I worked with a lot of different technologies for web development. I developed mobile applications with flutter and upload them to App and Play stores. For database, I have a good knowledge on MSSQL. With these technologies I developed various applications on IT sector.
